Dear Moon, Rain and Sunshine,

I want to express my deep gratitude for the beauty and warmth you bring into my life.

To the Moon thank you for your quiet presence in the night sky guiding us with your gentle glow and offering a sense of peace in the stillness. Your light reminds me of the calmness that can be found in the dark. ❤️

To the Rain thank you for nourishing the earth and replenishing the soul. Your soothing rhythm brings a sense of renewal and your presence reminds me to embrace change with grace.

To the Sunshine thank you for your warmth and energy lifting my spirits with your golden rays. You bring life to the world around me and light the way through every day.

Together you all create the perfect balance and I am grateful for the harmony you bring to this world.

***“Under the moon’s glow, the rain’s embrace, and the sun’s warmth, we find the perfect balance of life.”***

With heartfelt thanks,

Shalo
